# **Licence Agreement**

This Licence Agreement is between Medi-Map and the purchaser of the subscription to the Service specified in the Order (**Customer**).

# 1 Service

- 1.1 Licence. Medi-Map grants Customer a non-exclusive and non-transferable licence, during the Licence Period, to:
  - (a) access and use the Service and Documentation; and
  - (b) permit its End Users to access and use the Service and Documentation,

in each case, for the purpose of prescription management as part of its usual business operations at the sites agreed in the Order (and as updated from time to time by agreement between the parties in writing), subject to and in accordance with the terms of the Agreement.

**1.2 On-boarding.** To enable the Customer and its End Users to use the Service, Medi-Map will create an account, set the access controls for each End User and perform any other on-boarding activities specified in the Order. On-boarding typically does not include activities such as training, project management, and populating and uploading charts. If additional on-boarding activities will be required to use the Service, Medi-Map will provide Customer with a SOW detailing the necessary Professional Services and Fees before commencing those activities. Customer's execution of any installation authorisation or data cleansing authorisation forms constitutes Customer's irrevocable and unconditional acceptance that these on-boarding activities have been properly authorised and accepted by Customer in full. While Medi-Map will use reasonable endeavours to provide Customer with access to the Service and Support Services on and from the Delivery Date, Customer acknowledges that the Delivery Date is an estimate only.

#### 1.3 Licence Restrictions. Customer must ensure that:

- (a) neither Customer nor any End User installs, hosts, accesses, uses, or otherwise exploits the Service, except as permitted under clause 1.1;
- (b) neither Customer nor any End User reverse engineers, decompiles or disassembles the Service, views or gains access to the source code to the Service, or uses the Service to provide any product or service that is an alternative, substitute or competitor to the Service;
- (c) neither Customer nor any End User copies, develops any modification, enhancement, derivative work or other development of the Service or incorporates any Customer, End User or Third Party Materials into the Service (except as permitted under clause 1.1);
- (d) neither Customer nor any End User uploads, distributes or displays through, the Service any material that is unlawful, harmful, malicious, threatening, defamatory, obscene, infringing, offensive, sexually explicit, violent or discriminatory;
- (e) neither Customer nor any End User removes any product identification, proprietary, trade mark, copyright or other notices applied to or contained in the Service or Documentation (unless approved by Medi-Map in writing); and
- (f) no person other than Customer, and its End Users, accesses or uses the Service or Documentation.
- **1.4 Support Services**. Medi-Map will provide Support Services for the Service for the duration of the Licence Period, in accordance with the Support Services Agreement. Customer must provide all information and assistance reasonably required by Medi-Map to perform the Support Services. To avoid any doubt, the Support Services do not include support for the Customer's Environment, hardware, Customer Material or Third Party Materials (unless agreed as Professional Services under a SOW).
- **1.5 Professional Services**. Customer may need to purchase Professional Services to implement and access the full functionality of the Service, particularly where this is not included as part of on-boarding (see clause 1.2 above). If Customer wishes to purchase Professional Services, the parties must agree a SOW. Once executed by both parties, a SOW forms part of the Agreement.
- **1.6 Updates.** Customer acknowledges that Medi-Map may make Updates to the Service in its absolute discretion. If Customer can demonstrate to Medi-Map that any Update is materially adverse to it, then it may terminate the Agreement by written notice to Medi-Map within 30 days of notification of the Update and Medi-Map will provide a refund of any Fees paid in advance for use of the Service in the period after termination.

  - (a) Medi-Map provides a prescription management service only, and as such, merely facilitates the sharing of information between third parties in accordance with security controls;
